

## Darwin College Information Services Committee – Minutes

Meeting date:	Thursday 18 May 2017
Present:	Alan Blackwell (chair), Ronald Haynes, Espen Koht, Andy Pitts <i>No declarations of interest were recorded</i>
Apologies:	Matthew Edwards, Meltem Gürel, Ruben Drews, Miltos Allamanis, Andrzej Bugajski

**Minutes of the last meeting were approved.**

**774. An official change of name, as defined in recent changes to College Ordinances, was noted.**

### **775. Website**

Theme update from Slashzero can proceed, once a development server is created: **Action EK**  
Student volunteers are sought for lecture series archive update, incorporating DOIs. **Action: MG/RD**  
Explore transfer of Darwin College Research Reports to Apollo repository. **Action: AB**

### **776. DCSA – no report**

### **777. College computing facilities**

New network cabling is installed, and connections will be transferred by end of term  
Note that Bradfield court project will involve ground works around a major branch of Granta Backbone. EK will monitor, and is in contact with network management team.  
The event management system is proving valuable for booking and payments at degree congregations and alumni events.  
EK expects to receive a proposal from the Vice-Master for a Darwin WeChat group

### **778. University information systems**

Plans are in hand to migrate talks.cam to firewalled/https service. Ideally, any useful source updates to version forked in Oxford will be adopted. EK requested attention to summer-time bug in event feed data.  
RH reported that there are planned changes to UC security governance, under a new Chief Information Security Officer, with proposals to be circulated for comment in due course.  
There are planned changes to model for network usage charging to colleges – the Bursar is negotiating via bursars' committee  
RH distributed data on usage of public-facing wireless access points over the past year.  
Design work is in progress on a replacement CamSIS module for graduate student reporting and feedback. Darwin will be the college most affected by this work, but has not been directly consulted at this point. AB has some contact with the project as an academic user representative. It was recommended that the Dean should liaise with Graduate Tutors group, regarding review of requirements.

### **Date of next meeting:**

Michaelmas term – to be announced  
Future agenda item to note: standing item report on information security

Alan Blackwell  
20 May 2017
